

TEACHER INVIGILATION DUTY ORGANIZER

USER MANUAL

1. Introduction

The **Teacher Invigilation Duty Organizer** is a web-based application designed to manage and organize examination invigilation duties for school teachers efficiently.

The system helps school administrators to:

- Add and manage teacher information
- Assign invigilation duties
- Create daily invigilation schedules
- Generate printable reports
- Monitor allotted and assigned duties
- Produce complete examination duty schedules

The application is specially designed for school examination management and reduces manual work, errors, and duplication in duty allotments.

2. System Overview

The application contains the following major modules:

Module	Purpose
Add Teacher	Add and manage teacher details
Teachers List	View complete teacher summary
Duty Allotment	Assign total duties for examinations
Duties Allotted List	View allotted duty counts
Create Duty	Assign classes for invigilation
Print Outs	Generate daily invigilation reports
All in One Print	Generate complete exam schedule

3. Main Features

Teacher Management

- Add teacher details
- Edit teacher information
- Delete teacher records
- Search teachers instantly

Duty Allotment

- Assign examination-wise invigilation duties
- Set number of duties for each teacher

Invigilation Creation

- Assign class invigilation for specific dates
- Prevent duplicate class assignment
- Track remaining duties automatically

Reporting

- Print daily invigilation duty reports
- Print teacher summary reports
- Generate complete exam matrix schedules

4. System Requirements

Requirement	Details
Browser	Google Chrome Recommended
Internet	Required
Database	Firebase Firestore
Device	Desktop / Laptop
Screen Resolution	1366 × 768 or higher

5. Home Screen Layout

The application contains:

Header Section

Displays:

- School Name
- School Location
- Application Title

Sidebar Menu

Menu	Function

1. Select assigned classes
2. Click **Delete Selected**
3. System removes assignments

Refresh Panel

Click **Refresh** to reload:

- Available classes
- Assigned classes
- Duty counts

10. Duties Allotted List Module

Purpose

Displays total allotted duties for selected examinations.

Steps

1. Click **Duties Allotted List**
2. Select examination(s)
3. Click **Show Duty List**
4. Review duty counts
5. Click **Print** if required

11. Print Outs Module

Purpose

Generates daily invigilation duty reports.

Steps

1. Click **Print Outs**
2. Select date
3. Select examination

4. Click **Generate**
5. Review report
6. Click **Print**

Generated Report Includes

- School name
- Examination name
- Date
- Class-wise invigilator details

12. All in One Print Module

Purpose

Generates complete examination invigilation schedule.

Features

- Matrix-style schedule
- Date-wise arrangement
- Class-wise teacher mapping
- Printable landscape format

Steps

1. Click **All in One Print**
2. Select examination
3. Click **Generate Schedule**
4. Review complete schedule
5. Click **Print**

13. Automatic System Features

Automatic Calculations

The system automatically calculates:

- Assigned duties
- Remaining duties
- Total allotted duties

Duplicate Prevention

The application prevents:

- Duplicate class assignments
- Invalid duty creation
- Over-allocation of duties

Real-Time Updates

Changes are updated instantly using Firebase Firestore database.

14. Print Features

The application provides optimized printing:

Report	Orientation
Daily Duty Report	Portrait
Teachers List	Portrait
Matrix Schedule	Landscape

15. Validation Rules

Rule	Description
Teacher Required	Teacher must be selected
Exam Required	Examination must be selected
Date Required	Date required for duty creation
Duty Limit	Cannot exceed allotted duties
Duplicate Prevention	Same class cannot be assigned twice

16. Database Used

The application uses:

Firestore

Stores:

- Teachers
- Invigilation allotments
- Daily schedules
- Reports

17. Advantages of the System

- Reduces manual work
- Saves administrative time
- Prevents duty duplication
- Generates instant reports
- Easy to use
- Professional print outputs
- Real-time database synchronization

18. Troubleshooting

Problem	Solution
Data not loading	Check internet connection
Print not working	Use Google Chrome
Duties not saving	Ensure all fields are filled
Duplicate class error	Class already assigned

19. Best Practices

- Enter teacher names consistently
- Verify duty counts before assignment
- Refresh panel after deletions
- Generate reports before printing
- Use latest version of Chrome browser

20. Conclusion

The **Teacher Invigilation Duty Organizer** is a complete digital solution for managing school examination invigilation duties efficiently.

The system ensures:

- Accurate duty distribution
- Simplified administration
- Faster report generation
- Better examination management
